

TENNESSEE ACUPUNCTURE COUNCIL

TCM's Essential Role in Solving the Lyme Epidemic, Hillary Thing, L.Ac.

October 19, 2019 10:00-5:00 6 NCCAOM PDA (pending)

Bluhen Botanicals: 111 E Jackson Ave #103, Knoxville, TN 37915

<https://tnacupuncturecouncil.org/newsevents/>

Lyme and similar entrenched infections are rapidly on the rise across the US. Antibiotics remain the go-to medical solution, yet there are many reasons why they do not result in a return to health. This talk will explore the central role that Chinese medicine practitioners can (and indeed must!) play in the proper diagnosis and treatment of Lyme and Lyme-like illness.

You will learn:

- How to make an accurate clinical diagnosis of Lyme-borreliosis;
- What Lyme labs mean (and what they don't);
- How to navigate and support your patients through the Lyme treatment maze from start to finish;
- The essentials of a comprehensive natural treatment approach;
- Case-based sample protocols including acu-moxa, herbal, functional medicine, and liposomal essential oil treatments.

About Hillary: Hillary Thing, L.Ac. is a holistic Lyme disease specialist with over two decades of clinical experience. She trains health professionals in holistic Lyme treatment via a year-long training, the Holistic Lyme Practitioner Mentorship. Hillary educates people worldwide via www.uprootin6lyme.com, and at scientific and holistic medical conferences throughout the US. She treats patients both in-person at Nourishing Life Health Center in Kingston, NY and internationally via telemedicine.
